## NI Tech Day Montréal

Join us for a free full day technical seminar exploring the latest advancements in NI's hardware, software, and data acquisition technologies. This event brings together engineers, developers, and industry partners for a mix of presentations, live demos, and hands-on learning.

Get an exclusive look at NI's latest hardware and software innovations, including LabVIEW. Discover how to accelerate validation and production testing using the PXI platform, and learn how software automation can boost productivity while cutting costs.

### AGENDA

#### Morning Sessions:

- What's New with NI Hardware & Software
- NI Nigel™ AI Advisor and LabVIEW
- SystemLink
- InstrumentStudio and PXI Modular Instruments

#### Lunch and Demos:

- CompactDAQ
- PXI Automated Production Test

#### Afternoon Sessions:

- OPAL-RT Partner Presentation
- Hands-on Session with PXI and CompactDAQ
