

HYPERMIL[®] Customers

HYPERMIL

Since 1997, OPAL-RT has earned the trust of over 800 customers, including Fortune 500 companies, academic institutions and laboratories. More than 2000 users currently run OPAL-RT in 40 countries around the world.

HYPERMIL[®] provides engineers with tools to address these challenges, through an advanced real-time simulation platform featuring Hardware-in-the-Loop (HIL) testing. Whether you're developing, integrating or testing, or simply tired of waiting hours for a few seconds of simulation, HYPERMIL provides the solution.

Proud Users of HYPERMIL[®]

ABB Beijing Drive Systems Co., Ltd.	Northwestern University
ABB Power Systems	Norwegian University of Science and Technology
Alstom - Canada	National Transmission & Dispatch Center (NTDC)
Bouygues Energies & Services	Nanyang Technological University (NTU)
California State University, Sacramento	Operador Nacional do Sistema Eléctrico
Central Power Research Institute	Otto-von-Guericke-Universität Magdeburg
Centro de Pesquisas de Energia Eléctrica - (Cepel) - Eletrobras	Pacific Northwest National Laboratory
China Electric Power Research Institute	Politecnico di Torino
Concordia University	R&D Nester
Central Research Institute of Electric Power Industry (CRIEPI)	Rensselaer Polytechnic Institute
CSG Electric Power Research Institute	RTE - Centre National d'Expertise Réseaux
Dominion Energy	RWTH E.ON Energy Research Center
Enercon	RWTH - High Voltage Technology (IFHT)
Entergy	Société de Construction de Lignes Électriques
Escuela Superior Politécnica del Litoral (ESPOL)	Shenyang University of Technology (SUT)
Fraunhofer IFF Magdeburg	Siemens AG - EM TS HVDC&FACTS
Fraunhofer IOSB AST Ilmenau	Singapore Institute of Technology
GE Grid Solutions	SINTEF
Gentec	Southeast University
Hubei Electric Power Science Research Institute	Supergrid Institute
Illinois Institute of Technology	Monterrey Institute of Technology and Higher Education
Indian Institute of Technology Kanpur	Tianjin Electric Power Corporation
Indian Institute of Technology Kharagpur	Tianjin University
Institute of Chemical & Engineering Sciences (EPGC)	Toshiba
Institut de recherche d'Hydro-Québec (IREQ)	Technical University Dortmund
Instituto Técnico de Automação e Estudos Eléctricos (ITAEE)	Tübitak Marmara Research Center
Karlsruher Institut für Technologie - IAI	Universidad de Concepción
Karlsruher Institut für Technologie - IEH	Universidad de Michoacana
Karlsruher Institut für Technologie - ITEP	University of British Columbia
McGill University	University of Florida (UFL)
Meidensha Corporation	University of Illinois at Urbana-Champaign
NARI Relays	University of New Orleans
National Grid	University of New South Wales
New York Power Authority	University of Toronto
Ningxia EPRI	Washington State University
Northeast Dianli University	Wuhan University
	X.J. Group Corporation
	XM S.A.
